# JOÃO AMADO

FROM BENFICA, LISBON, PORTUGAL · 916809704 · [AMADOB2B@GMAIL.COM](mailto:AMADOB2B@GMAIL.COM)

Graduated in July 2018 in Information Technologies at Faculdade de Ciencias da Universidade de Lisboa, After a rocky start in Colege, I've worked a lot and learned a lot in the last few years, and it started to grow on me, a passion with programming.

The constant challenge of solving problems and the enormous number of possibilities that programming gives, in order to solve them, gives me a sense of freedom, freedom of thinking.

Honestly, I don't know every single java function or pattern in the book (I google it), but I have the most important skill set, in my opinion, I know how to think, I know how to teach a machine to do what I want it to do.

I consider myself a proactive, Hard-working, Dynamic and Enthusiastic person, who contributes to a healthy and optimal working environment.

My favorite coding language is PHP.
